

## Wine/Champagne Glass Painting

What should I do with my glasses after I paint them before I can drink out of them

Paint is permanent after air drying for 21 days or can be baked to expedite permanence.

### **Bake-to-Cure Method**

1. Allow painted glass project to dry at least one hour. Make sure the paint is dry to the touch before baking.
2. Place project in a cool oven.
3. Set oven to 350° F and bake for 30 minutes. Turn oven off.
4. Allow glass project to cool down in the oven to room temperature, then remove.

### **Care Instructions**

Project can be Hand washed, or cleaned in the top rack of a standard, non-commercial dishwasher. Do not use in dishwasher if it has pot scrubbing features or top jets
